REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose or suggest the claimed black magnetic iron oxide particles having the three phase structure or the magnetic toner or black color pigment containing these particles. The definition of the particles on specification page 19, lines 6-17, has been relied upon during examination. The requirement of the black color pigment in claim 15 is seen as limiting the degree of blackness so that the claimed material has characteristics of size, coloration, etc. of a pigment, such as discussed on specification page 23, line 11 *et seq.*

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
